PRO TIP

SHOW RULERS AND GUIDES

- Go to the “File” (Upper left corner)
- Click “Settings”
- Click “Show rulers and guides”

Click anywhere on the ruler and drag down (from the top) or drag right (from the side)

- *Hold Shift while dragging to lock it to the nearest pixel*
- *You can create multiple guides to build your own grid system*
- *Guides don't show in downloads, they're just for layout*
